LINUX VACATION/ EASTERN EUROPE 2018

International conference of developers and users of free / open source software

What is LVEE conference?

Linux Vacation / Eastern Europe is being organised in Belarus since 2005.
The conference offers a place for free software enthusiasts and professionals to meet and exchange ideas in a friendly, informal setting. It is the biggest FOSS event in Belarus.

Tasks of the Conference are to give participants the ability of the experience exchange, to organize discussions on most urgent evolution directions and tendencies in the branch and calculated practical knowledge.
Meeting is aimed to help in setting necessary contacts, providing development to the ideas, acquiring support of the open source community.
